RE: Arkwright Summit Wind Farm  
Supplemental Environmental Impact Statement

Dear Mr. Norton:

Enclosed please find ten copies of the Supplemental Environmental Impact Statement (SEIS) for the Arkwright Summit Wind Farm (Project), formerly known as the New Grange Wind Farm, for distribution to the Town Board and the Town's attorney, Dan Spitzer. The SEIS has been prepared pursuant to the New York State Environmental Quality Review Act (SEQRA) and regulations (6 NYRR Part 617).

The enclosed contents also include a complete copy of the confidential Appendix F, Phase IB Archaeological Investigation Report. The sensitive nature of the material within is intended for agency review only and should not be made publicly available. We have also enclosed a full copy of Appendix C, Wetlands Delineation Report, for agency and public reference. As discussed, we have not included the appendices to the Wetlands Delineation Report in each SEIS due to the large number of data sheets and photos that comprise the appendices.

This SEIS has been prepared with input provided by the Town's consultant Conestoga-Rovers & Associates. They have been provided with advance draft copies of all of the sections and studies contained in the SEIS and the Project team has diligently responded to comments and suggestions resulting from their review. Hence, we believe this document meets the requirements of SEQRA and "is adequate with respect to its scope and content for the purpose of commencing public review."

We look forward to a comprehensive, public review of the Project and SEIS. The Arkwright Summit Wind Farm team stands ready to respond to any and all questions, comments, and requests that may arise from the public, the Town, the consultants, and agencies.

Thank you very much for your attention to this submittal.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tom Stebbins", is written over a horizontal line.
